

Tracking, Process Automation, Work Orders
& Reporting Mobilized for

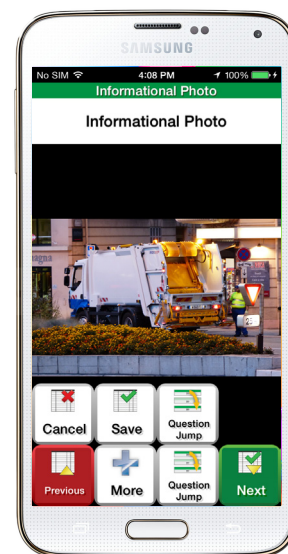

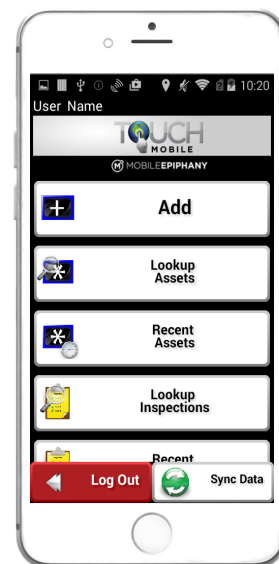

WASTE HAULERS & PROCESSORS

Mobile Epiphany provides **Touch Mobile for Waste Haulers**, solutions to mobilize your waste hauler work force and their processing counterparts. Mobilize your unique tasks: collections and drop offs, bin tracking, hazmat disposal, DOT and EPA compliance reports, work orders, incident reporting, vehicle inspections, site inspections and automating reports to waste treatment and management companies. Worker's paperwork are simplified by our easy-to-use software to perform inspections, data collection lookups and automated reporting. Plus, managers have the ability to request and run customized reports directly from their mobile devices, PC and web browser.

Touch Mobile for Waste Haulers is a powerful solution that can be used out of the box or rapidly modified to quickly capture your specific processes and requirements.

Touch Mobile for Waste Haulers Benefits:

- Track collections and drop offs, bins, hazmat disposal, DOT and EPA compliance, reporting, work orders, incident data and reporting
- Lookup bin tag; including date stamp, GPS, and bin ID
- Inspect bin; blocked, missing, hazardous material in bin, unauthorized dumping, and bin in wrong location
- Auto-trigger email notifications, work orders, report creation and distribution based on rules set within workflow engine, internally or to clients
- Reference schematics, repair manuals and any other documents required on the mobile device

Touch Mobile for Waste Haulers Benefits Continued:

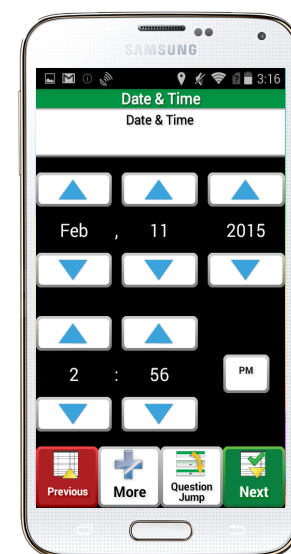

- Associate assets, processes, forms with the proper parent-child relationships
- Use our out-of-the-box application or rapidly modify apps to meet your specific requirements
- Configure and deploy and make additional modifications quickly as required
- Intuitive, touch-based, mobile user interface requires minimal training
- The same mobile application platform can be used to mobilize and automate all processes and reporting throughout your organization

Touch Mobile for Waste Haulers Features:

- Industry standard forms and custom forms at your fingertips
- Collect data and conduct asset lookup by barcode, direct part marking, or asset attribute, even when no network connection is present
- All data is stored in a centralized database, works as a stand-alone system or can share data with nearly any system
- Online or offline application and process operation – network connectivity not required
- Automatically send and receive data to remote mobile devices the moment a device is connected to a network
- Capture photos, signatures, audio and video. Photos can be rotated, cropped, and sketched on
- Role based security and permissions – users only see data relevant to their role or geographical location
- Work Crumbing® technology ensures that all data captured is recorded with date, time and GPS location for event tracking and worker productivity analysis

Touch Mobile for Waste Haulers is the perfect field-based solution to mobilize data collection and reporting for waste treatment companies.
